## THOUSAND OF **MILES TO MARRY**

The Long Journey Undertaken by a Raleigh Girl.

Raleigh, N. C., Feb. 10.-A young Raleigh girl yesterday started alone on a journey of 3,000 miles.

At the end of the journey she expects to marry the man she loves.

He is a Mormon Elder and has spent the past twenty-eight months in Raleigh, preaching the Mormon faith. His name is Joseph P. Emery. Her

name is Effic A. Roberts, daughter of Zachariah and Martha Roberts, who Dre on McKee street. 'Why do you go there to marry

him?" I asked her, as she was about to leave her home for the station. "Because he cannot come here to marry me," she replied.

marry me," she replied.

Then she explained that under the rules of her church only unmarried men are sent out as missionaries, and until they retire from the mission field they must remain single. Hence Edder Emery could not marry here and take his bride back with him. So Wednesday before last, he left alone for Salt Lake City. Sunday he arrived there and immediately wrote for Miss Roberts to follow him. As they expect to live in Utah it fould be very expensive to have returned for her. And that is why she set out alone on affour days' journey of 3,000 miles.

And that is why she set out alone on a four days' journey of 3,000 miles.

MORMONS AT WORK.

For several month now—it must be more than two years—the Mormans missionaries have been at work in this country.

Their labors have not been without a certain sort of reward. If their statements are to be believed, they have taxede many converts here.

They claim to have two churches in the county—one at Varina, south of there, and one at Eagle Rock, northwest of the city. The Varina church, 'they say, has thirty members. In Raleigh they claim "some seven or eight" converts. Three of these are women and the rest are men. The women only have been baptised. They are

Mrs. L. L. Brinkley returned from Hertford yesterday, where she spent a short time.

Weldon, N. C., Feb. 10.-One of our business men here sold 300 bales of cotton a few weeks ago at 7½ cents. He says he is now \$1,500 out of pocket, and was seen yesterday morning sit-

and was seen yesterday morning sitting upon a goodsbox, after reading the market reports in the Virginian-Pilot, bemoaning his fate and calculating just how many bills he could have paid with the \$1,500 which he did not get. He will be a bull on the market in future.

Senator Ransom, who is one of the largest farmers in North Carolina, is strictly "in it." He has his entire cotton crop on hand-something like a thousand bales. It is interesting to note that the cotton will place in his inside pocket just \$5,000 more today than it would have done a few weeks ago. It is also interesting to note that this is one year's pay for a United States Senator.

General Ransom carries his seventy-three years well; is as erect today as when he left West Point, away back before the unpleasantness between the States, and often comes over to Weldon, where his friends are always glad to meet him.

It will be observed that these three people live near together in the southeren part of the city and all work at the same place. The first of them to be converted and baptised was Alice Patterson. ### STRANGE MENTAL POWERS

HOW PEOPLE ARE INFLUENCED.

Startling Words from the Committee Appointed to Investigate Hypnostim for the Benefit of Journal Readers.

Hypnotism is no longer a myth, a lancatul creation of the mind, but a reality, a most potent power, capable of producing infinite good. For the purpose of ascertaining the exact value of this much-bilked- of power acommittee, composed of a physician, a well-known jurist, a prominent minister and leading railroad man, was appointed to investigate hypnotism.

The committee carried on a series of investigations in regard to the power of

hypnotism to influence the actions and deeds of people in the everyday walks of

The first steps taken by the members of the Committee was to master the science in every detail, so that they might state from personal experience the good or ovil this strange power might produce. They wrote the New York Institute of Science, Rochester, N. Y., the greatest school of Hypnot'sm and occult Sciences in the world, and received full and complete instructions in regard to how hypnotism may be used to influence people in business, how to use it in treating diseases, etc., etc. In a few days they mastered these instructions and were full-fledged hypnotists.

were full-fledged hypnotists.

It was clearly demonstrated that hypnotism may be employed so that the person operated upon is entirely unconscious of the fact that he is being influenced; and, all things considered, the committee regard it as the most valuable discovery of modern times. A knowledge of it is essential to one's success in life and wellbeing in society. Dr. Lincoln says, after a thorough investigation, that he considers it the most
